Training & tracking through United Academy.

## UNITED ACADEMY OVERVIEW

- Quality Training that meets U.S. and Canadian regulatory requirements and standards
- Over 400 unique course titles
- Core courses taught in English, Spanish or French
- Hundreds of eLearning courses to meet your OSHA training requirements, including OSHA 10-Hour and OSHA 30-Hour
- Courses offered in multiple formats for flexibility and to appeal to various learner types
- Equipment Operator Certifications and Fall Protection training offered in a classroom and blended format (online theory and live evaluation)
- Trench & Excavation, and Confined Space courses offered in a classroom and online

## 1 How do you know crews are certified?

- Personal credential cards give instant access to training records
- Verify certificates and training online
- Store & track training and certifications from United Academy and elsewhere

## WALLET CARD

- Individual Wallet Card per trainee
  - Custom QR code to view training easily
  - No wear and tear plastic or sticker format
  - Auto-email reminders when training is about to expire
  - Reports to proactively manage your training and budget

Scan the QR code above to see a training profile example

## 2 What if they are not?

- Schedule Classroom instruction and certification at our location or yours OR
- Access blended learning 24/7
  - Blended Learning Consists of:
    1. Theory - Online
    2. Exam - Online
    3. Practical evaluation - In person

## Restoration Specific Courses.

### Odor and Fire (OCT) and (SRT) Combined

Learn about odor sources, detection processes, equipment, chemical options and applications. The student will learn the proper odor removal and deodorization techniques for mitigating urine contamination, combustion sources such as fire and smoke damage, and chemical sources such as fuel oil spills as well as biohazards. The Fire and Smoke Restoration Technician course covers smoke odor removal, structure cleaning, surface preparation and finishing, and contents cleaning, including wood furniture, documents, books, and electronics.

**Certification:** IICRC- OCT and IICRC- SRT

- Duration of 3 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Restorative Drying 101 (WRT)

As the essential introduction to water damage restoration, the Water Restoration Technician course covers water restoration basics and is an excellent introduction for new technicians and a thorough review for experienced technicians. Includes an all-new 80-page reference manual. Certification: IICRC Water Restoration Technician.

**Certification:** IICRC

- Duration of 3 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Carpet Cleaning Technician (CCT)

The Carpet Cleaning Technician course teaches the fundamentals of carpet cleaning. Topics include fiber types and characteristics, fiber identification, carpet construction and styles, dyeing at the mill, soil characteristics and the chemistry of cleaning. This course will also introduce the technician to the 5 methods commonly used in carpet cleaning.

**Certification:** IICRC

- Duration of 2 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Restorative Drying 101/201 Combined Course (WRT/ASD)

Combines the complete Water Restoration Technician and Applied Structural Drying courses into a single 5-day program. For many, combining the WRT and the ASD means less time away from work and a significant reduction of travel expense. The Combined Course a great way to bring new staff fully up to speed or to provide a comprehensive review of the principles of restoration science and technique. The course includes all the information and learning experiences provided by the separate courses. Successful attendees receive both WRT and ASD certifications.

**Certification:** IICRC

- Duration of 5 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### AMRT

Prerequisite: (IICRC Certification in WRT)The Applied Microbial Remediation Technician course covers mold and sewage remediation techniques to individuals engaged in property management, property restoration, IEQ investigations or other related professions. Emphasis will be placed on teaching mold and sewage remediation techniques to individuals who will perform these procedures in the field. Course graduates will be adequately equipped to perform remediation services, while protecting the health and safety of workers and occupants.

**Certification:** IICRC

- Duration of 4 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Upholstery and Fabric Cleaning (UFT)

I.I.C.R.C. Upholstery & Fabric Cleaning Technician classes cover upholstery fiber categories, fiber identification and testing, manufacturing of the fiber & fabric, chemistry of cleaning, upholstery cleaning methods, protections, spotting and potential problems. A student will have a specific knowledge about fabric and fiber content, as well as furniture construction. This enables students to identify limitations and potential cleaning related problems, on a given piece of upholstery.

## Restoration Specific Courses.

### Certification: IICRC

Duration of 2 days

- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Trauma Scene Remediation 211

MR 211 is a comprehensive course covering trauma scene clean-up and decontamination. Attendees will acquire the necessary skills and knowledge required to properly evaluate, clean and decontaminate a site following a human trauma event.

### Certification: RSA

- Duration of 2 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).

### Xactimate Estimating 283

Acquire the knowledge and practical skills necessary to quickly create accurate estimates using a variety of Xactimate tools in one of the only estimating programs in the world that is taught during a live water loss. Students will estimate a project in real time as the work is completed. This three-day Intermediate estimating course is taught by Sean M. Burgess, an Xactimate Certified Trainer (XCT), who has experience working in both the insurance and restoration fields. Participants will learn how to efficiently set up, dimension, scope and deliver professional estimates through valuable hands-on training using real-world data while a flood is being responded to live in a training environment. This is for beginning to intermediate Xactimate level students who are or will be actively working in a restoration environment. Students completing this program will be prepared to challenge the Xactimate Level 1 and 2 user certification exams offered through Xactware.

### Certification: Xactware

- Duration of 3 days
- These are all pre-scheduled classes and instructor lead courses. Exam fees, if taken, add \$65 per test.
- Large classes can be accommodated (participant minimums apply).
