

PROKLEAN SERVICES[®] & CORE

Professional Restoration Chemical Solutions

Exclusive CORE Partner Benefits

As a valued **CORE customer**, you receive **15% OFF every ProKlean Services order**, plus direct access to technical expertise, product training, and job consultation from restoration professionals.

ProKlean Services partners with CORE to deliver innovative, professional-grade chemical solutions for **water damage, mold remediation, fire restoration, odor elimination, and professional cleaning** - backed by technical expertise, Made-in-the-USA quality, and responsive customer support.

RESTORE[™]: EPA-REGISTERED DISINFECTION & MOLD REMEDIATION

ProKlean Restore L[™]

EPA-Registered Chlorine Dioxide Liquid

Professional-strength chlorine dioxide technology engineered for restoration professionals requiring **EPA-registered disinfection, sanitization, mold remediation, and light deodorization prior to primary odor elimination.**

Recommended Applications

- Water damage restoration
- Categories 2 & 3 water losses
- Mold remediation
- Biohazard and sewage losses
- HVAC systems
- Surface disinfection and sanitization

Key Benefits

- EPA-registered disinfectant
- Professional restoration strength
- Broad-spectrum performance
- Made in the USA

Packaging

Quart, 1 Gallon, 5 Gallon, and 25 Gallon case options.

ProKlean Restore FG[™]

EPA-Registered Fast Gas

Advanced chlorine dioxide gas technology for the air you breathe. Disinfects both **air and exposed surfaces**, reaching areas where liquid disinfectants cannot.

Recommended Applications

- Mold remediation
- Water damage restoration
- HVAC systems
- Crawl spaces and attics
- Whole-room treatment
- Large-loss projects

Key Benefits

- EPA-registered fast gas technology
- Disinfects air and exposed surfaces
- No specialized equipment required
- Ideal for whole-room treatments

Packaging

Case of 10. Includes 10 Fast Gas packs, 10 dispersion cups, and 10 application placards.

Application Notice

Restore FG is a lockout/tagout application and must be used in accordance with the EPA-approved label. Treatment areas should be secured using appropriate containment, "Application in Progress" signage, and restricted access until treatment has been completed and the space has been properly ventilated according to label directions.

Complete EPA-Registered Solution

For comprehensive remediation projects, pair **Restore L[™]** with **Restore FG[™]** to provide customers with a complete EPA-registered liquid and gas disinfection system for water damage restoration, mold remediation, and large-loss projects.

RESTORE[™]: PROFESSIONAL ODOR ELIMINATION SOLUTIONS

When odors are the challenge, ProKlean Restore[™] products eliminate odors at the molecular level, rather than masking them.

ProKlean Restore DL PRO

Professional Liquid Odor Eliminator

Designed for restoration professionals to eliminate severe odors at their source.

Recommended Applications

- Fire and smoke damage
- Structural odor removal
- Contents restoration
- Vehicle odors
- Pet odors
- Tobacco and cannabis
- Protein and biological odors

Key Benefits

- Eliminates odors at the molecular level
- Professional-strength chlorine dioxide technology
- Penetrates porous materials
- Ideal for severe restoration odors

Packaging

1 Gallon - Case of 5, 5 Gallon - Case of 5

Application Notice

ProKlean Restore DL PRO is a professional-use product. Always wear appropriate personal protective equipment (PPE) and follow the product label and Safety Data Sheet (SDS) during mixing, application, and handling.

ProKlean Restore DFG

Professional Fast Gas Odor Eliminator

Fast-acting chlorine dioxide gas technology for complete odor elimination in enclosed environments where liquids cannot be applied.

Recommended Applications

- Fire and smoke damage
- Structures and contents
- Furniture and textiles
- Vehicles
- Hotels and apartments
- Commercial buildings

Key Benefits

- Rapid odor elimination
- Gas reaches inaccessible areas
- Ideal for severe odor situations
- Professional restoration performance

Packaging

Case of 10

ProKlean Restore DEG

Extended Release Gas

Activated by ambient relative humidity, Restore DEG provides continuous chlorine dioxide release for up to 30 days for long-term odor control and maintenance.

Recommended Applications

- Long-term fire odor control
- Crawl spaces
- Storage facilities
- HVAC systems
- Vacant buildings
- Persistent musty odors

Key Benefits

- Continuous odor control up to 30 days
- Activated by ambient humidity
- No mixing or electricity required
- Ideal for maintenance applications

Packaging

1 Gallon - Case of 5, 5 Gallon - Case of 5

Use products according to label directions. PPE required where noted.

CLEANERS, EQUIPMENT & PROGRAM SUPPORT

Professional cleaning concentrates, job-site support equipment, and upcoming product lines.

PROKLEAN ELITE: PROFESSIONAL CLEANING CONCENTRATES

Power Purple
Heavy-Duty Degreaser & Cleaner

Cuts through grease, soot, carbon, smoke residue, oil, and heavy industrial soils.

Ideal for:
Ideal for fire restoration cleanup, heavy equipment, commercial kitchens, manufacturing facilities, concrete floors, and industrial cleaning.

Power Orange
Professional Citrus Degreaser

Powerful citrus concentrate formulated to dissolve grease, adhesive residue, oils, tar, and stubborn soils.

Ideal for:
Ideal for fire restoration, adhesive removal, equipment cleaning, oil and grease removal, and commercial maintenance.

Power Green
Multi-Purpose Cleaner

A versatile concentrate designed for everyday professional cleaning.

Ideal for:
Ideal for walls, floors, cabinets, countertops, schools, healthcare, and commercial buildings.

Power Mold & Mildew Stain Remover
Professional Stain Remover

Professional-strength stain remover formulated to quickly eliminate mold and mildew staining from hard, non-porous surfaces.

Ideal for:
Ideal for mold remediation, water damage restoration, tile and grout, concrete, bathrooms, and basements.

RHINO AIR MOVER

The Perfect Companion to Restore FG & Restore DFG

The Rhino Air Mover enhances the performance of Restore FG and Restore DFG by continuously circulating air throughout the treatment area, promoting more uniform chlorine dioxide gas distribution and improving treatment consistency.

Recommended for: Restore FG and Restore DFG

Key benefits: promotes uniform gas distribution; enhances penetration into difficult-to-reach areas; supports consistent room-wide treatment; helps optimize deodorization and disinfection applications; lightweight, compact, and easy to deploy.
